

As a NY native who moved "over-the-border" because my husband is a State employee but still works in NY, I say NO, a big loud through NO, to border taxes. Between this and the gas prices things like just being able to go see my parents in the NY border towns and to go to work everyday will rip apart my bank account, allowing us to spend less on the recreational things we do when living in CT like going to the mall, the restaurants, the local town shops in Bethel CT and Ridgefield CT. No!! No!! No!!
